ABOUT

adonia.vercel.app

A Software Engineer from Jimma University. I work across UI/UX design, frontend development, team coordination, and sales supportive product decisions to help teams ship stronger digital experiences.

EXPERIENCE

UI/UX Design

2024

Donkey Tube

The platform needed a clear, modern experience for visitors while also supporting efficient content management workflows.

Customer Service & Sales

2024

Probuild Trading PLC

A fast-paced retail environment required consistent customer support, active sales conversations, and clearer digital visibility for services.

UI/UX Design

2025

Amleset

The product required a clear, structured experience that makes key information easy to scan and navigate.

UI/UX Design & Frontend Dev.

2024

Information Network Security Administration (INSA)

My work there focused on User Experience (UX), User Interface Design, and Front-End Development.

UI/UX Design & Frontend Dev.

2026

Adwa Partners

The business needed a professional digital presence that clearly communicates services and improves lead confidence. and I redesigned their website to a modern and elegant look.
